0.0000	<i>Fire Risk Assessment needs to consider:</i> <i>The implications of having no detection within the bedrooms at this location.</i>

<p>Instruction on the use of fire extinguishers given to: Fire awareness and evacuation procedures discussed It has been noted on this day that portable Fire Extinguishers are merely a first aid measure in fighting fire. Equipment discharged/discussed at time of instruction Water Foam CO2 Dry Powder Fire Blanket</p> <p>Guidance to Clients: Ref: BS 5306: Part 3 1985, Para 7: Monthly Inspection It is recommended that regular inspection of all extinguishers, spare gas cartridges and replacement charges should be carried out by a responsible person at intervals, at least monthly, to make sure that appliances are in their proper position and have not been discharged or lost pressure (in the case of fire extinguishers fitted with a pressure indicator), or suffered obvious damage.</p>
